JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

MEXICO.

Report from Coatzacoalcos—Inspection of vessels—Sanitary conditions—Mosquitoes.

Acting Assistant Surgeon Thompson reports, June 10:

Week ended June 9. Three vessels inspected.

No illness occurred on these vessels while in port and all on board were well when they sailed.

Malaria is the prevailing disease at the port, but the general health is good. The rainy season has begun and mosquitoes are more numerous. There have been no cases of quarantinable disease reported.

Report from Salina Cruz—No transactions.

Acting Assistant Surgeon Gochicoa reports, June 6:

Week ended June 5. No vessels fumigated at this port.

Report from Tampico—Inspection and fumigation of vessels—Sanitary conditions.

Acting Assistant Surgeon Stowe reports, June 10:

Week ended June 9.

Vessels inspected and passed.....	5
Bills of health issued.....	5
Members of crews of outgoing vessels inspected.....	162
Passengers of outgoing vessels inspected.....	13
Vessels fumigated prior to sailing.....	0

No case of quarantinable disease has occurred during the week. The sanitary condition of port is good.

The weather continues hot and dry, and very few mosquitoes are present.

NICARAGUA.

Report from Bluefields, fruit port—Stegomyia.

Acting Assistant Surgeon Layton reports:

Ten days ended June 5. Present officially estimated population, 2,500. General sanitary condition of this port and the surrounding country during the week good. Marked increase in the number of mosquitoes has been noticed within the past week. The *Stegomyia calopus* especially is abundantly present. The coming of the rainy season has entirely relieved the water famine and has brought a plague of mosquitoes.

Bill of health issued to the following-named vessel:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
June 5	John Wilson.....	New Orleans.....	17	0	0
